PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | OOm Pte. Ltd., Singapore

July 2024 - Present

- Maintain and enhance a PHP-based internal CRM while contributing to its modernization with FastAPI and Next.js.
- Develop business workflows, REST APIs, third-party integrations, and data-synchronization processes.
- Optimize complex MySQL queries, operational reports, and Excel exports to improve responsiveness and business reporting.
- Troubleshoot production issues across frontend and backend systems; support releases, deployments, and post-deployment monitoring.
- Collaborate with Business Analysts, Project Managers, QA teams, and users to translate requirements and improve system architecture and frameworks.
- Create technical documentation, user guides, and process documentation and conduct knowledge-transfer sessions.

Junior Associate - Digital Marketing | Neolytix, United States

October 2023 - July 2024

- Managed multiple WordPress and Shopify client websites across SiteGround, Kinsta, and control-panel hosting environments.
- Built and customized WordPress themes, plugins, and shortcodes and integrated third-party services through REST APIs, JSON, and XML.
- Handled deployments, change requests, support tickets, uptime monitoring, and troubleshooting for client websites.
- Improved site performance and security through audits, database cleanup, plugin updates, malware prevention, and documented maintenance procedures.

Junior Web Developer | OOm Pte. Ltd., Philippines

October 2022 - October 2023

- Developed WordPress and WooCommerce landing pages and e-commerce sites using Elementor, ACF, custom post types, and Bootstrap.
- Implemented frontend and backend changes, reusable components, and client-requested enhancements.

- Migrated websites, configured hosting environments, and optimized page speed, databases, and plugins after development.
- Resolved compromised-site issues, applied security hardening, and prepared user manuals for websites and landing pages.

Associate Web Developer Intern | NeoDocto, India

January 2022 - May 2022

- Created and updated SEO-aligned WordPress blog pages using the Gutenberg editor.
- Prepared featured and gallery images to support published content.
- Served as intern team lead from February to May, assigning tasks and coordinating team output.

Student Assistant | Manuel S. Enverga University Foundation, Philippines

July 2018 - March 2021

- Provided frontline assistance to students, teachers, and staff for technical and campus-service requests.
- Troubleshoot internet access, printers, and common hardware and software issues and supported basic device configuration.
- Assisted with student ID issuance and printing and supported basic internal tools.
